Saint Louis, Missouri

QUALIFICATION SUMMARY

Software Engineering has offered me an engaging challenge that pushes me to learn, grow, and continuously problem solve. My unconventional career progression has led me to become a versatile employee who understands both technical and customer facing needs. I love to problem solve and write testable/readable code while always being willing to learn whatever it takes to be the best I can.

SKILLS

HTML	JavaScript	UI/UX
CSS	React	Python
Less	Node	Java
Sass	SQL	REST Architecture
